Please find **Answers** for the below questions :-

- taxes percentage is 15% , it will be excluded of the tagged price but shown in the cart at the end.
- distribution of commissions is 70% for designer or store owner, 30% for website, 15% for designer / store owner when their code is used.
- will share this soon.
- number of sub admins 3, (one for the stores, one for the studios (designers), one for the general workflow).

Questions:

1)   Let us know how the taxes will be calculated? Will it be included with product price or excluded? What would be the tax percentages?

2)   Need clarification on commission distribution to involved parties? We did n't receive any pdf.

3)   Please provide a testing / sandbox account for apple pay.

4)   Are sub admins required? [I think this concept is provided by Jack, Definition of Sub-admin is are users created by super admin to manage the work in their behalf.] If yes, then we need to know what actions they can perform on the behalf of admin and what would be restrictions?
